SOUTHWEST TECHNICAL COLLEGE

TEPA 2993 – Fundamental Externship (4 Credits)

Description

The Fundamental Externship course provides real-time hands-on training and treatment of patients under the supervision of an assigned preceptor. Students complete field and clinical rotations in a system with a local service provider. Students' progress from the most basic assessment and treatment methods to the level of entry-level paramedics. Students are involved with actual patient care, such as venous access, medication administration, respiratory treatment, and comprehensive patient assessment.

Course Objectives

- Perform at an advanced EMT level in patient assessment and corresponding patient management.
- Demonstrate competence in interpersonal management when working cooperatively with professionals in the clinical and field.
- Receive and integrate feedback on-clinical performance.
- Demonstrate comprehensive patient assessment, including a detailed physical exam and patient history and devise a patient care plan based on assessment findings.
- Distinguish the need for basic versus advanced airway interventions.
- Order appropriate pharmacologic interventions based on patient presentation and assessment findings.
- Administer 12 lead EKGs to patients in the acute setting.
- Integrate the pathophysiology, assessment, and critical decision-making skills indicated for patients in special populations.
- Successfully complete student minimum competencies showing sufficient progression in obtaining patient contacts.

Course Policies

The preparatory nature of this course requires the student be actively involved and dedicated to learning the material and completing the coursework. Course content is foundational to the education of a paramedic. If there is difficulty with any of the information or concepts, please seek help early so that you can be assisted in attaining and assimilating the essential content. If a student has completed foundational courses in Anatomy, Physiology, English, and Math and demonstrates adequate retention and integration of content, OR passes the Fisdap Paramedic Entrance Exam with >80%, credit will be awarded and attendance of this course will be waived. This course does not contain any tests, but various assignments to assess understanding. Each writing assignment is awarded points according to how well the submission follows the requirements of the assignment and are graded according to the college writing guidelines. Math, Anatomy and Physiology assignments are graded on accuracy and correctness. The concepts in this course are essential to progress within the program, and the course is very brief. Therefore, 100% attendance is required. If there are extreme circumstances, contact the Program Director to discuss the situation. Be courteous to your other classmates and keep cell phone use to a minimum and take only necessary phone calls out in the hall.
